SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

Flam. Liq. 2 / H225Flammable liquidsSkin Sens. 1 / H317Respiratory or skin sensitisationSTOT SE 3 / H336STOT-single exposure

Highly flammable liquid and vapour. May cause an allergic skin reaction. May cause drowsiness or dizziness.

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms

```
Danger
```

Hazard statements

H225	Highly flammable liquid and vapour.
H317	May cause an allergic skin reaction.
H336	May cause drowsiness or dizziness.

Precautionary statements

P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P280	Wear protective gloves and eye/face protection.
P370 + P378	In case of fire: Use foam to extinguish.

Hazard components for labelling

C.I. Solvent Yellow 88 1-methoxy-2-propanol C.I. Solvent Red 122

Supplemental hazard information

not determined

Additional information

Full text of classification: see section 16

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

In all cases of doubt, or when symptoms persist, seek medical advice.

4.3. Indication of any immediate medical attention and special treatment needed

First Aid, decontamination, treatment of symptoms.

GB Page 3 / 11

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media:

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

Unsuitable extinguishing media

strong water jet

5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3. Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Product may become electrostatically charged. Provide earthing of containers, equipment, pumps and ventilation facilities. Anti-static clothing including shoes are recommended. Floors must be electrically conductive. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

Further information

Vapours are heavier than air. Vapours form explosive mixtures with air.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 30 °C. Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

Personal protection equipment

Respiratory protection

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Use only respiratory protection equipment with CE-symbol including four digit test number.

Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber) Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Wear closely fitting protective glasses in case of splashes.

Body protection

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

Environmental exposure controls

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

SECTION 9: Physical and chemical properties

SECTION 12: Ecological information

Classification according to Regulation (EC) No 1272/2008 [CLP] Do not allow to enter into surface water or drains.

12.1. Toxicity

Amines, C12-14-tert-alkyl, bis[2-[(4,5-dihydro-3-methyl-5-oxo-1-phenyl-1H-pyrazol-4-yl)azo]benzoato(2-)]chromate(1-) Fish toxicity, LC50, Danio rerio (zebrafish) 1 - 10 mg/L (96 h) Toxic to aquatic life.; Technically correct releases of minimal concentrations to adapted biological sewage plants, will not disturb the biodegradability of activated sludge. Daphnia toxicity, EC50 (48 h) not determined Algae toxicity, ErC50 not determined Activated sludge, EC50: > 100 mg/L (3 h) (2-methoxymethylethoxy)propanol Fish toxicity, LC50, Poecilia reticulata (Guppy): > 1000 mg/L (96 h) Method: OECD 203 Daphnia toxicity, EC50, Daphnia magna (Big water flea): 1919 mg/L (48 h) Method: OECD 202 Algae toxicity, ErC50, Pseudokirchneriella subcapitata: > 969 mg/L (96 h) Method: OECD 201 Bacteria toxicity, EC10, Pseudomonas putida: 4168 mg/L (18 h) Based on available data the classification criteria are not met. 1-methoxy-2-propanol Fish toxicity, LC50, Leuciscus idus (golden orfe): 6812 mg/L (96 h) Based on available data, the classification criteria are not met. Daphnia toxicity, EC50, Daphnia magna (Big water flea) 21100 - 25900 mg/L (48 h) Based on available data, the classification criteria are not met. Algae toxicity, ErC50, Pseudokirchneriella subcapitata: > 1000 mg/L (168 h); Evaluation Inhibition of growth rate. Method: OECD 201 Ethanol Fish toxicity, LC50, Pimephales promelas (fathead minnow): 15300 mg/L (96 h) Daphnia toxicity, EC50, Daphnia magna (Big water flea): 12340 mg/L (48 h) Algae toxicity, ErC50, Chlorella vulgaris: 275 mg/L (72 h) Method: OECD 201 Bacteria toxicity, EC50, Pseudomonas putida: 5800 mg/L (4 h) Based on available data, the classification criteria are not met. Long-term Ecotoxicity Amines, C12-14-tert-alkyl, bis[2-[(4,5-dihydro-3-methyl-5-oxo-1-phenyl-1H-pyrazol-4-yl)azo]benzoato(2-)]chromate(1-) Fish toxicity, LC50 (96 h) Toxic to aquatic life with long lasting effects. (2-methoxymethylethoxy)propanol Daphnia toxicity, NOEC, Daphnia magna (Big water flea): > 0,5 mg/L (22 D) Based on available data the classification criteria are not met. 1-methoxy-2-propanol Algae toxicity, ErC50, Pseudokirchneriella subcapitata: > 1000 mg/L (168 h) Based on available data, the classification criteria are not met. Amines, C10-14-branched and linear alkyl, bis[2,4-dihydro-4-[(2-hydroxy-4-nitrophenyl)azo]-5-methyl-2-phenyl-3H-pyrazol-3-onato(2-)]chromate(1-) Fish toxicity, LC50 (96 h) Harmful to aquatic life with long lasting effects. 12.2. Persistence and degradability (2-methoxymethylethoxy)propanol Biodegradation: 75 % (28 D) Method: OECD 301 F Readily biodegradable (according to OECD criteria). 1-methoxy-2-propanol

Biodegradation: 96 % (28 d)

	220X00 24.10.2023 2.4	Touch-up Dye Revision date: 22.08.2023 Issue date: 22.08.2023	GB Page 9 / 11	Se
--	-----------------------------	---	-------------------	----

Method: OECD 301E

Readily biodegradable (according to OECD criteria). Ethanol

Biodegradation, aerobic.: 97 % (28 D)

Readily biodegradable (according to OECD criteria).

12.3. Bioaccumulative potential

(2-methoxymethylethoxy)propanol Partition coefficient: n-octanol/water: 0,006

1-methoxy-2-propanol

Partition coefficient: n-octanol/water: 0,37

Ethanol

Partition coefficient: n-octanol/water: -0,35

Bioconcentration factor (BCF)

(2-methoxymethylethoxy)propanol Bioconcentration factor (BCF): < 100

Ethanol

Bioconcentration factor (BCF): 0,66 No indication of bioaccumulation potential.

12.4. Mobility in soil

Toxicological data are not available.

12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

12.6. Endocrine disrupting properties No information available.

12.7. Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Appropriate disposal / Product

Recommendation

Do not allow to enter into surface water or drains. This material and its container must be disposed of in a safe way. Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

List of proposed waste codes/waste designations in accordance with EWC

080111* Waste paint and varnish containing organic solvents or other dangerous substances *Hazardous waste according to Directive 2008/98/EC (waste framework directive).

Appropriate disposal / Package

Recommendation

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

SECTION 14: Transport information

14.1. UN number or ID number

		UN 1263
14.2.	UN proper shipping name Land transport (ADR/RID): Sea transport (IMDG): Air transport (ICAO-TI / IATA-DGR):	Paint PAINT Paint
14.3.	Transport hazard class(es)	
		3
14.4.	Packing group	II
14.5.	Environmental hazards	
	Land transport (ADR/RID)	not determined
	Marine pollutant	not determined

14.6. Special precautions for user

Transport always in closed, upright and safe containers. Make sure that persons transporting the product know what to do in case of an accident or leakage.

Advices on safe handling: see parts 6 - 8

Further information

Land transport (ADR/RID)

Tunnel restriction code

D/E SPECIAL PROVISIONS 640D

Sea transport (IMDG)

EmS-No.

F-E, S-E

14.7. Maritime transport in bulk according to IMO instruments

No transport as bulk according IBC - Code.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

Maximum VOC content of the product in a ready to use condition (in g/L): 830

Directive 2004/42/EC on the limitation of emissions of volatile organic compounds

VOC product category: (Cat. B/e) ; VOC limit value: 840 g/l

Maximum VOC content of the product in a ready to use condition (in g/L): 830

National regulations

Restrictions of occupation

Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC).

Substance/product listed in the following inventories:

DSL listed

TSCA listed

REACH candidate list of substances of very high concern (SVHC) for the approval process.

According to the available data and / or according to the information provided by the suppliers, the product does not contain any substance that is eligible for inclusion in Annex XIV (list of substances subject to authorization) in accordance with Article 57 in conjunction with Article 59 of REACH.

Regulation (EC) 1907/2006. material in question applies.Regulation (EC) 1907/2006 (REACH) Annex XIV (list of substances subject to authorization)

According to the available data and / or according to the information provided by the suppliers, the product does not contain any substance that is considered to be a substance that requires authorization according to REACH Regulation (EC) 1907/2006 Annex XIV.

15.2. Chemical Safety Assessment

For the following substances of this mixture a chemical safety assessment has been carried out:

EC No.	Designation	REACH No.
CAS No.		
203-539-1 107-98-2	1-methoxy-2-propanol	01-2119457435-35-xxxx
200-578-6 64-17-5	Ethanol	01-2119457610-43-xxxx
252-104-2 34590-94-8	(2-methoxymethylethoxy)propanol	01-2119450011-60-xxxx
287-007-4	Amines, C12-	14-tert-alkyl, 01-2120766190-58-xxxx
85408-46-4	bis[2-[(4,5-dihydro-3-methyl-5-oxo-1-phenyl-1H-pyrazol- zoato(2-)]chromate(1-)	4-yl)azo]ben

SECTION 16: Other information

Full text of classification in section 3			
Flam. Liq. 3 / H226	Flammable liquids		
STOT SE 3 / H336	STOT-single exposure		

Flammable liquid and vapour. May cause drowsiness or dizziness.

Article No.: Print date: Version:	220X00 24.10.2023 2.4	Touch-up Dye Revision date: 22.08.2023 Issue date: 22.08.2023	GB Page 11 / 11	Seit 1892
Eye Irrit.	2 / H319	Serious eye damage/eye irritation	Causes serious eye	irritation.

Further information

Classification according to Regulation (EC) No 1272/2008 [CLP]

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in section 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.

You can also find current SDSs for our standard products online on our homepage under Downloads in the relevant product area.
